Train. A chain of storage units imitating a train (engine + carriages). Its length is limited only by the size of the room. The fancy shapes and multicoloured finish turn the room into a fantasy world. A very functional set which provides a lot of space for display and storage. The cupboards are made of white laminate. The doors, drawers applications in delicate pastel colours add liveliness to the whole interior.

Yese an exotic trip to the savanna and meet the happy friends from the latest Jungle series. The nine funny animals come from steppes, rivers and rain forests. The warm pastel blues and greens will bring a joyful atmosphere to any interior. The additional desk and puffs follow the design to maintain a consistent look.

Wave

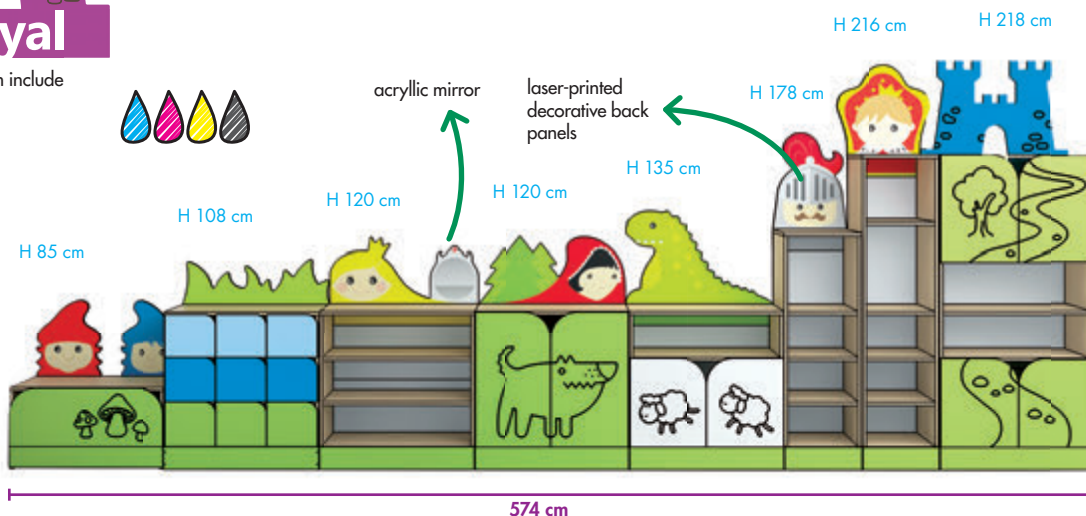

heights shown include

Welcome on the old Donald's farm. The collection is inspired by green meadows. When it's rainy and windy outside, have fun on the ever-sunny farm.

Children love animals and close contact with them. The new furniture series Fantasy is intended to meet these needs. The same size modules differ only in decorations on the fronts. A complement to the series is a teacher's desk. The furniture is ideal for day care centres and nursery schools by organizing functional space. With the wide range of modules,

interiors can be arranged so as to meet the needs of the youngest. The universal colour scheme makes a background for various decorations and accessories. The furniture comes in a set, but a particular piece can be bought separately. An interesting addition to the series of ten modules are soft foam discs with animal motifs matching those on the furniture.

Cubo house

An ideal base for play and a hiding place for those toddlers who need to quieten down or temporarily separate from the group. It is a cosy space to guarantee a feeling of security. The soft mattress inside is moulded so as to allow the child to lie down or to sit. Because of its height the den requires attachment to a wall. The mattress comes in 2 colours and is sold separately.

- Dim: 153 x 54 x 149 cm;
colour: birch, green, white,
rosy, blue, grey;
- material: laminated chip-

CONNECTING UNITS

Shelving inserts provide extra shelving space while yesing up very little area. They are not free standing and so they need anchoring between two standard free-standing units. The sides make a perfect fit between the posts on both sides to create a stable construction.

PRIMA

The central theme of the economy series Prima are muted colours and a wealth of combinations. Its formal minimalism and functionality make it a universal set of furniture, ideal for a classroom, biology room, teachers' room or the head's office.

The spacious cubby holes will accommodate educational aids, ring binders, books and class registers. The open shelves are

intended for the handiest objects and documents. The lockable units will be useful for important documents or aids with restricted access.

FRESH

Our furniture series Fresh allows for optimum adaptation of a room, while giving it lightness. This is possible thanks to the variety of wall cabinet and shelving types and all the cupboards are available in two sizes. Additionally, the legs and castors create an extra space which makes the room look larger, as well as providing easy access underneath for cleaning. The shelf units are available in several types and all the medium standing units in two width sizes. The distinctive feature of the

line are the colourful shelves; the distances between them allow for easy storage of documents and ring binders. The new version of Fresh furniture line helps arrange the classroom so as to display educational aids in a better way. Children may watch models and figures through the glass doors of cabinets to which, however, only the teacher has the keys.

This line is particularly recommended for biology classrooms, in which observation and experimentation are the

most commonly used teaching methods.

- 5 colour options: orange, green, white, grey and birch;
- two sizes of standing and hanging cabinets (92 and 47 cm).

TALL CABINETS

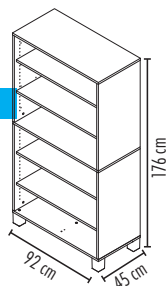

92 x 45 x 176 cm (height with legs)

Tall cabinets are a good storage place for educational aids or documents. All things that you want to keep safe yet handy should go into cabinets and drawers. Books are most handy on open shelves and aids will look their best behind glass lockable doors.

With height-adjustable shelves you can make the most of the cabinet space.

Things intended to be accessible to all are best placed on open shelves. Those used under the supervision of a teacher should be locked behind a glass door.

Foam seats – Snake

An element intended to enrich the bookcase series Fresh. The coloured poufs will make great seats for children to relax while listening to a story or reading a favourite book. The set of nine soft poufs can be used as a decoration in each room. The elements can also be joined together as puzzle pieces and so inspire children to play creatively in a playgroup or at school. All the elements are ergonomic and easy for children to carry around and arrange as they please, and they are safe thanks to no sharp edging. The cover is nice to the touch and easy to clean.

- 4 shapes 58 x 58 x 35 cm in orange, blue, green and red.
- 4 shapes 67 x 67 x 35 cm in blue, green and red.
- snake's head 35 x 35 x 35 cm in yellow.
- particular elements can form a pouf around a box to match the bookcase Fresh (NM9500). It is possible to buy only four elements with which to form a cube (NM0010), a circle (NM0020) or an oval (NM0015).

ASO

an ace among school desks

High-quality single, double and triple desks in sizes 6 and 7. The tops with safe rounded corners are made of durable 18 mm HPL laminated chipboard in beech effect.

HPL is a thermosetting scratch-, crash-, heat- and chemical-resistant material, and as such is an ideal option with older pupils in school labs or biology workshops.

The top comes in three sizes: single (69 x 50 cm), double (130 x 50 cm) and triple (180 x 50 cm). The framework and legs are made of steel square tubing 40 x 40 mm painted grey. Level adjustment.

NOWA SZKOŁA LAB FURNITURE

Our lab furniture is the ideal solution for school science labs. It is manufactured using modern technology and it meets standards for educational institutions. The worktops are made of specialist high-quality 25 mm board resistant most chemicals, mainly acids. The material is also highly resistant to scratching, hard knocks, abrasion, stains, moisture as well as extreme temperatures. The work stations and the lab table are made of laminated 18 mm chip-

board in beech finish and mounted on 13 cm pedestal on a slide for stability. The cream worktop and the beech body make an aesthetic colour combination and are easy to clean. In response to the demand from schools the work stations come in two sizes equipped with large and small sinks as well as taps. The series also includes a pupil table with two cabinets (one on each side).
